VDA TRAINING

ID211

IATF 16949 - 1st/2nd party Auditor - Qualification

1. Contents:

In this three-day training, you get to know the requirements of the two standards IATF 16949 and DIN EN ISO 9001, receive information how to interpret them and what they must do to implement these requirements successfully in your organization.

2. Objectives:

a) You will understand the process-oriented approach in the automotive industry and know how to design process management accordingly.
b) You will become familiar with the contents of DIN EN ISO 19011.
c) You will become familiar with the structure of IATF 16949, its contents and its requirements incl. DIN EN ISO 9001.
d) You will learn how to describe the IATF 16949 certification requirements.
e) You will learn how to perform 1st/2nd party audits independently according to the requirements of IATF 16949 in a technically correct manner.

3. Concept and Methods:

The alternation between technical presentations, individual, group and case study exercises makes it possible for you to expand and apply IATF 16949 and DIN EN ISO 9001 knowledge in appropriate learning steps.

4. Target Audience:

a) QM directors
b) QM employees
c) Internal/external system auditors.

5. Prerequisites for Attendance:

a) Knowledge of DIN EN ISO 19011.
b) Knowledge and practical experience in the implementation and maintenance of management systems.

6. Certificate of Qualification:

After passing the knowledge test (Multiple-Choice-Test), you will receive a digital certificate of qualification.

7. Duration:

3 Days (24 hours).

8. Accompanying Material:

QM system standard “IATF 16949”, VDA QMC “standards collection (DIN EN ISO 9000, 9001, 9004 and 19011)”.
